View analogue and digital clocks noting the local time in each of your 8 chosen locations. Each adjusts for Daylight Saving Time automatically and you can also view the times relative to Greenwich Mean Time.

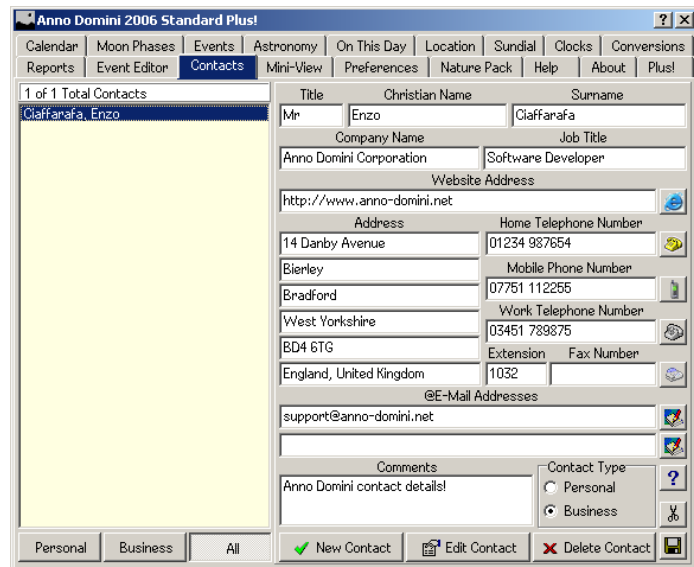

Anno Domini 2011

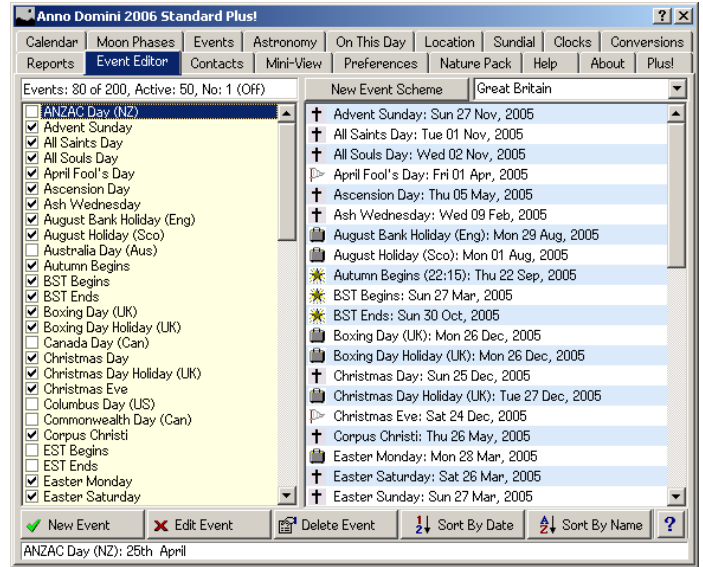

View a projection of the world highlighting areas of sunlight and darkness which is automatically updated every minute. Also view the local time of your 8 chosen locations around the world. Each location automatically adjusts for Daylight Saving Time if it is applicable for your chosen location and also notes the distance in either miles or kilometres between your home location and the other 7 chosen locations.

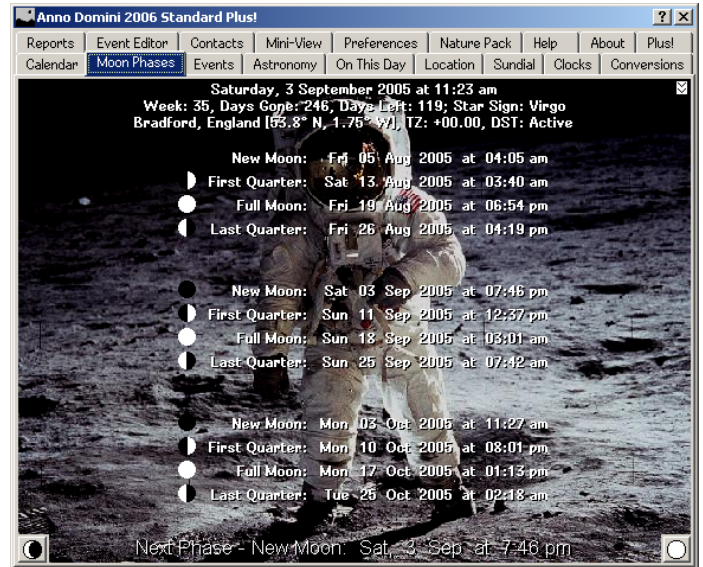

Convert between different imperial and metric measurements such as Temperature, Volume, Distance, Area, Velocity and Weight. Also, you can set the precision for each result and print your answers.

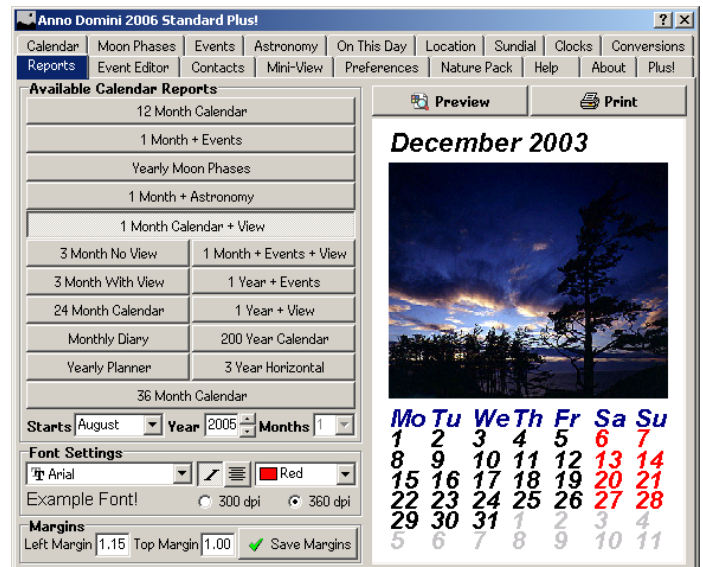

Store a database of contacts storing such personal information as address, phone and mobile telephone numbers, e-mail addresses, Internet web site addresses. Also, simply click on the buttons next to the fields to either dial the phone number or access the web-site or e-mail that person instantly.

Store up to 10 schemes of 200 events each that you can fully edit and alter to your needs. Choose rules to determine which events are displayed for which years and adjust the dates depending on whether they land on a weekend or not.

View the dates and times of the moon phases for your chosen location for the current month and the following two months. Also view the date and time of the next major moon phase.

View, preview and print many reports which gather together in an organised way the information generated by Anno Domini. Print monthly and yearly calendars, planners, astronomical data and your monthly diary. The format of the reports can be altered by choosing any installed TrueType font for the reports.

Anno Domini is a shareware program which means you can evaluate the program for a period of time before deciding whether you wish to continue using the product. You are free to pass copies on copies of the program to friends and colleagues providing the distribution package is not altered in any way and is in unregistered form.

You can use Anno Domini legally for a period of 28 days from the day the program was first installed on your computer system. During this time you must decide whether you wish to register to continue using the program with the same functionality as during the trial period. After the evaluation period has expired, the program will revert to Free mode where all nags to register will be removed but only a limited number of functions will be available for use. There are various online registration options available as follows:

Anno Domini Lite: £5.95 (UK), \$9.95 (US), €6.95 (EUR)

Anno Domini Standard: £12.95 (UK), \$19.95 (US), €15.95 (EUR)

AD Standard + Plus! Pack: £15.95 (UK), \$24.95 (US), €19.95 (EUR)

Anno Domini Professional: £24.95 (UK), \$39.95 (US), €34.95 (EUR)

Plus! Pack: £4.95 (UK), \$8.95 (US), €6.95 (EUR)

Purchase of the Plus! Pack entitles users to FREE lifetime upgrades to Anno Domini Standard/Plus!!

Shareware Philosophy!

Anno Domini has been developed over a period of ten years and has been continually evolving during that period of time with the help of registered users. Unlike commercial applications that you may find on the high-street, shareware is constantly updated so that you can always have the latest version of the program which can be found on the dedicated website <http://www.anno-domini.net>.

Why Should You Register?

No nag screens or reminders while using Anno Domini
Gain access to free software updates and e-mail support to Anno Domini
Receive advance notification of updates and new releases
Help fund development of future versions of the program.
