Shareware Calendar for IBM PC + Microsoft Windows XP, 2000, ME, 98SE, 98 or 95

## Anno Domini 2004 Plus! Pack Overview

Anno Domini 2004 Plus! Pack is an optional add-on to Anno Domini 2004 Standard that gives the program a whole host of new features and extras making the most of Anno Domini. Available exclusively to registered users of Anno Domini Standard, please view a detailed summary of the special benefits of this upgrade below.

[The Plus! Pack can be purchased with a 25% discount via the Anno Domini web site provided your order is received no later than midnight on Sunday, 4th January 2004.](#) For UK users, the price is £5.00, for US users the price is \$8.95 and for European users the price is €7.50. From the 5th January 2004, the cost of the Plus! Pack will revert to £6.75 for UK users, \$11.95 for US users and €10.00 for European users.

### Julian Calendar

With the Plus! pack, you can now view calendars prior to the Gregorian Calendar change. The USA and United kingdom changed to the Gregorian Calendar system on the 14th September 1752 whereas Europe changed to the Gregorian Calendar system much earlier on the 15th October 1582. You can easily switch between the two calendar systems and view any calendar from 1 AD to 1752 AD. Examples of the changeover for the US and Europe are shown below:

The Julian Calendar can be accessed from the main Calendar window or the Mini-View via the button showing the roman numeral. The button acts as a toggle - when depressed the Julian Calendar is shown, when not depressed, the Gregorian calendar is shown. The month and year of the calendar can be altered by pressing the "+M", "+Y", "-M" and "-Y" buttons as in the Mini-View. You can also select any given year by left-clicking the mouse on the year and entering the year directly. The month can be selected by left-clicking the mouse on the month or using the month-picker as in the normal calendar view. You can select any of the dates in the calendar to view the times of sunrise/transit/sunset and moonrise/transit/moonset for that given date at your chosen home location on Earth with a left mouse click.

As an added bonus, clicking on the printer icon allows you to print a 12 month calendar report displaying the Julian Calendar for any year from 1 AD to 1752 AD.

## Desktop Clock

The Desktop Clock provides a handy reminder of the current time on your Windows desktop even when the main Anno Domini window is not visible. There is a choice of four different clock views depending on the size chosen as shown below:

The style and position of the clock can be chosen from the main clock control panel which allows you change the font used and it's size and also set the foreground and background colour of the clock. You can also position the clock on your Windows desktop in one of 6 pre-defined positions or choose your own specific location.

By selecting either the 2 Clocks or 8 Clocks option, you can view the current times of either 2 or 8 chosen locations from anywhere in the world in real-time on your desktop. The clock control panel allows you to select one location as your holiday location for comparison. Below shows and example of Los Angeles as your home location and Moscow as your holiday location.

With the 8 Clocks option you can view the current time for your chosen home location and the remaining 7 locations which you have chosen from the Location tab. Your home location is shown in grey and each clock also shows the current twilight status, i.e. if the box is white it is daytime at that location, if it is navy it is morning twilight, red for evening twilight and black for night time.

Options in the control panel allow you to automatically open the desktop clocks each time Anno Domini is run and also ensure it always appears above any other open desktop window.

## Save/Restore Desktop

The **“Save Desktop”** button in the Help tab of Anno Domini allows you to record the exact position of your desktop icons for each screen resolution your graphics card is capable of displaying. This allows you to restore your desktop icons to their correct positions after a screen resolution change by simply clicking the **“Restore Desktop”** button. Anno Domini supports screen resolutions from 640x480 right up to 1600x1200. Each screen resolution can have an individual scheme of icon positions which are automatically stored each time the “Save Desktop” button is pressed.

## Lunar and Solar Eclipses

**Partial Solar Eclipse: Monday, 19 April 2004 at 5:35 am**  
**Total Lunar Eclipse: Tuesday, 4 May 2004 at 12:31 pm**

Anno Domini now displays the dates and times of when the next partial/total solar or lunar eclipse occurs with an accuracy of plus or minus two minutes in the Astronomy tab. A left mouse click on either displayed time will connect you via the Internet to the NASA Eclipse web-site which gives you very detailed information concerning the eclipse including the best position on Earth for viewing.

## Real-Time Astronomy

When the **“Real-Time Astronomy”** setting is on in the Preferences tab, the main status area of the Calendar tab will show the current Julian Date and the distance of the Earth from the Sun and the Moon updated every second. The exact fraction of the Moon visible from the Earth as a percentage is also shown and updated every minute. T

## Three Extra Calendar Reports

The **“1 Month + Events + View”** calendar report shows the current image of nature with the calendar for the current month superimposed along with a listing of your chosen events. An example is shown below:

### October 2003

| Mo | Tu | We | Th | Fr | Sa | Su |
|----|----|----|----|----|----|----|
| 29 | 30 | 1  | 2  | 3  | 4  | 5  |
| 6  | 7  | 8  | 9  | 10 | 11 | 12 |
| 13 | 14 | 15 | 16 | 17 | 18 | 19 |
| 20 | 21 | 22 | 23 | 24 | 25 | 26 |
| 27 | 28 | 29 | 30 | 31 | 1  | 2  |
| 3  | 4  | 5  | 6  | 7  | 8  | 9  |

#### Scheme: Great Britain

|            |                            |            |                            |
|------------|----------------------------|------------|----------------------------|
| Wed 01 Jan | New Year Holiday (UK)      | Sun 15 Jun | Trinity Sunday             |
| Wed 01 Jan | New Year's Day             | Thu 19 Jun | Corpus Christi             |
| Mon 06 Jan | Epiphany                   | Sat 21 Jun | Summer Begins (19.01)      |
| Fri 14 Feb | Valentines Day             | Thu 10 Jul | Orangeman's Day (NI)       |
| Sat 01 Mar | St. David's Day            | Mon 04 Aug | August Bank Holiday (Eng)  |
| Tue 04 Mar | Shrove Tuesday             | Fri 15 Aug | The Assumption             |
| Wed 05 Mar | Ash Wednesday              | Mon 25 Aug | August Bank Holiday (Eng)  |
| Mon 17 Mar | St. Patrick's Day          | Tue 23 Sep | Autumn Begins (10.08)      |
| Fri 21 Mar | Spring Begins (00.58)      | Sun 26 Oct | BST Ends                   |
| Sun 30 Mar | BST Begins                 | Mon 27 Oct | October Holiday (Eire)     |
| Sun 30 Mar | Mother's Day (UK)          | Fri 31 Oct | Halloween                  |
| Tue 01 Apr | April Fool's Day           | Sat 01 Nov | All Saints Day             |
| Sun 13 Apr | Palm Sunday                | Sun 02 Nov | All Soul's Day             |
| Thu 17 Apr | Maundy Thursday            | Wed 06 Nov | Guy Fawke's Night (UK)     |
| Fri 18 Apr | Good Friday                | Sun 09 Nov | Remembrance Sunday (UK)    |
| Sat 19 Apr | Easter Saturday            | Sun 30 Nov | Advent Sunday              |
| Sun 20 Apr | Easter Sunday              | Sun 30 Nov | St. Andrew's Day           |
| Mon 21 Apr | Easter Monday              | Mon 06 Dec | The Immaculate Conception  |
| Wed 23 Apr | St. George's Day           | Mon 22 Dec | Winter Begins (06.54)      |
| Mon 05 May | May Day Bank Holiday (Eng) | Wed 24 Dec | Christmas Eve              |
| Mon 26 May | Spring Bank Holiday (Eng)  | Thu 25 Dec | Christmas Day              |
| Thu 29 May | Ascension Day              | Thu 26 Dec | Christmas Day Holiday (UK) |
| Mon 02 Jun | June Holiday (Eire)        | Fri 26 Dec | Boxing Day (UK)            |
| Mon 09 Jun | Whit Monday                | Fri 26 Dec | Boxing Day Holiday (UK)    |
| Sun 15 Jun | Fathers Day (UK)           | Wed 31 Dec | New Year's Eve             |

The "36 Month Calendar" report shows calendars for 3 consecutive years in a vertical format. A part example is shown below:

| January 2002 |    |    |    |    |    |     | January 2003 |    |    |    |    |    |     | January 2004 |    |    |    |    |    |     |     |

## Nature 2 Image Pack

The Nature 2 Image pack consists of 12 stunning images from nature - one image for each calendar month.

## Nature 3 Image Pack

New for 2004 is the Nature 3 Image pack adding a further 12 stunning images from nature.

## Moon Phases Background Images

Change the look of your Moon Phases tab with either of these stunning high resolution images of the Apollo Moon missions courtesy of NASA.

## Events Background Images

Change the look of your Events tab with these calming images of nature - guaranteed to make you want to go on a vacation!

## Astronomy Background Images

Change the look of your Astronomy tab with either of these stunning high resolution images from the Shuttle missions courtesy of NASA.

The backgrounds to the Moon Phases, Events and Astronomy tabs can be changed via the Preferences tab of Anno Domini. These six extra background images are in addition to those that are already supplied as standard with the shareware distribution of Anno Domini 2004. Also remember that you can use any of your own images as backgrounds as long as they are in the JPEG .JPG file format.

## Selecting Your Moon Phases Backgrounds

From the Preferences tab, click on the "Change" button above the Moon Phases Image legend and an Open File dialog will appear. Select the "Backgrounds" folder from within your Anno Domini directory and you have the choice of the "**Apollo 11 Spaceman\_580.JPG**" or "**ASTRONAUGHT2.JPG**" files. Select your desired file and then click the "Open" button. You will then see a preview of your selected background image in the Preferences tab. Finally, click the "Save Settings" button to record this setting.

## Selecting Your Events Backgrounds

From the Preferences tab, click on the "Change" button above the Events Image legend and an Open File dialog will appear. Select the "**Backgrounds**" folder from within your Anno Domini directory and you have the choice of the "**SEA3.JPG**" or "**Best\_Sunset.JPG**" files. Select your desired file and then click the "Open" button. You will then see a preview of your selected background image in the Preferences tab. Finally, click the "Save Settings" button to record this setting.

## Selecting Your Astronomy Backgrounds

From the Preferences tab, click on the "Change" button above the Astronomy Image legend and an Open File dialog will appear. Select the "**Backgrounds**" folder from within your Anno Domini directory and you have the choice of the "**SPACE\_AD\_1.JPG**" or "**SPACE\_AD\_2.JPG**" files. Select your desired file and then click the "Open" button. You will then see a preview of your selected background image in the Preferences tab. Finally, click the "Save Settings" button to record this setting.
