"I have never understood the female capacity to avoid a direct answer to any question."  
Annular Solar Eclipse: Thursday, 1 September 2016 at 10:08 am (117 days)

View monthly calendars from AD 1752, current date, time, days gone and days left. Also view times of sunrise/sunset and moonrise/moonset for your location and selected date. Also, statistics between any two dates can be displayed, e.g. number of working days, weekend, days of the week etc. For each calendar month view a scene from nature. View the illuminated portion of the moon and additional calendar views and edit your diary entries all from the same view!

Choose your location from a database of over 1000 from around the world. Each location can have a separate time zone and daylight saving time rule. If you can't find your own location in the database you can define up to 10 new ones, tailored to your own needs. Each location defined can also be edited and changed when necessary. The locations in the database are sorted by continent and city. The database of locations can be updated via the AD web site.

Anno Domini Professional contains an extra thirteen (13) exclusive Calendar Reports (highlighted by yellow box) accessible from the Reports tab to enhance the program.

# Anno Domini Professional 2026

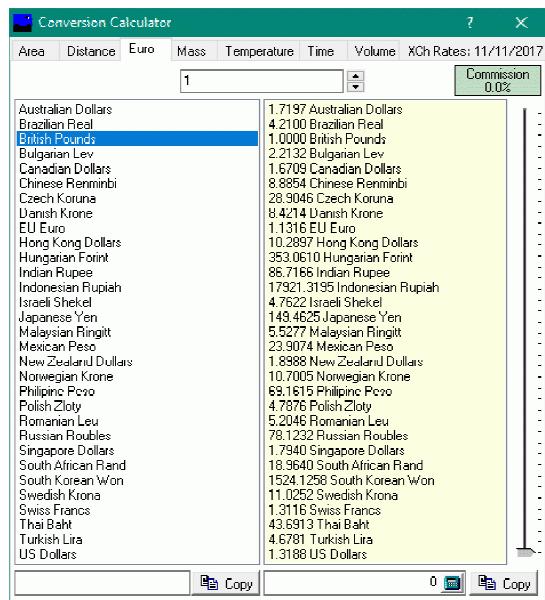

View calendars prior to the Gregorian Calendar change. The USA and United Kingdom changed to the Gregorian Calendar system on the 14th September 1752 whereas Europe changed to the Gregorian Calendar system on the 15th October 1582.

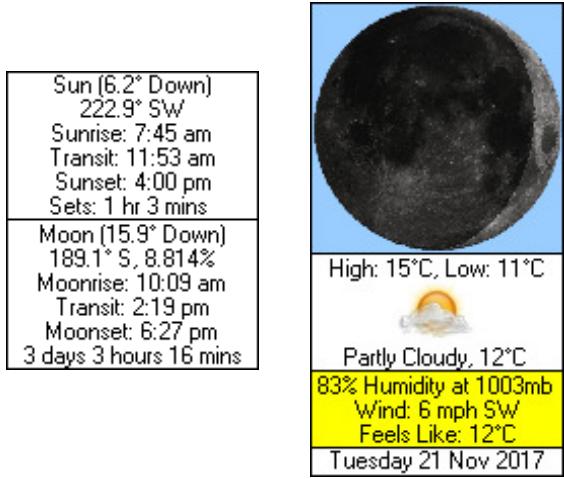

With the Desktop Clocks you can view the local time for your chosen home location and the remaining 7 locations which you have chosen. Each clock also shows the current twilight status. Users have a choice of showing the eight locations in a horizontal or vertical orientation on the desktop and the panel can be saved to a particular position on the desktop. Clicking the mouse on any of the locations will display the local weather conditions for the chosen location.

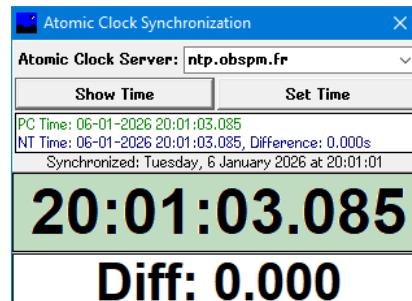

The Sundial Screen Saver shows the Sundial on your desktop after a predetermined amount of time your PC has been idle. Eight different areas of Earth are shown starting first with the whole of the Earth followed by Europe, USA, Middle East/Asia/Australasia, Russia/China and Africa/South America, The Gulf/India and Australia/New Zealand. Each map will transition after your chosen delay time. The user can choose between a 2D or 3D representation of the Earth.

The Conversion Calculator includes real-time daily updates of up to 31 different foreign currencies with four digits of precision. All data is downloaded daily and automatically from the European Central Bank.

Below the desktop clocks you can view detailed astronomical data regarding the Sun and the Moon in real time. The current altitude and position of the Sun is shown along with the times of sunrise, transit and sunset along with a countdown to the next event. The current altitude and position of the Moon is shown along with the percentage of visible phase with the times of moonrise, transit and moonset. Finally the age of the Moon is shown in days, hours and minutes.

Anno Domini synchronizes the PC clock at three separate time intervals during the day via an Internet Time Server to ensure your PC's clock is adjusted to match the exact atomic time accurate to thousands of a second. Professional users now have the extra benefit of access to a control panel allowing the PC clock to be adjusted at any time.

# Anno Domini Feature List

FREE	STANDARD
	View Gregorian calendars for years 1753 AD to 2150 AD
	View Current Day of Week, Date, Time, Working Week, Days Gone, Days Left, Starsign
	View times of Sunrise/Transit/Sunset, Moonrise/Transit/Moonset and Daylight Hours
	Database of over 1000 locations around the world from which to choose your home and holiday locations
	4 Chimes and Alarm Clocks each with distinctive alarm sounds and a message reminder
	12 Images from nature via the Nature 1 Image Pack
	View your home/chosen location on a 2D map or via the 3D globe representation
	View a random quotation each day from a 400 quote database
	Online access to News/Sports/Horoscopes/Comic Strips/TV Schedules
	Event Editor to create your own recurring Anniversaries
	Daily and Weekly Diary and view the previous and next months calendar
	View the local time in any 8 chosen locations taking into account local Daylight Saving Time rules
	View dates/times of Moon Phase for the selected month (years 1753 AD to 2150 AD)
	Database of annual holidays for the UK/US/Europe/Canada/Hong Kong/Australasia
	Easter Sunday, Chinese New Year and Passover calculated for years 1753 AD to 2150 AD
	Automatic Atomic Clock synchronization of your PC at 10am, 3pm and 8pm local time
8 Calendar Reports	13 Calendar Reports
Print Calendar Reports for years 2018 and 2019	Print Calendar Reports for years 1753 AD to 2150 AD
Calendar statistics calculated from the Current Date	Calendar statistics calculated from a chosen date
3D Moon Phase Viewer	3D Moon Phase Viewer Showing Exact Angle of Tilt
3D View of Earth Showing Daylight/Darkness	Sundial Tab with Date/Time Picker and 10 Preset Maps
	Moon Phases Tab with New/Full Moon Dates for the year
	Events Tab to view 50 chosen events/anniversaries
	Astronomy Tab with Lunar/Solar Eclipse Predictions
	Conversion Tab (Temp/Distance/Velocity/Volume/Weight)
	User-Defined Calendar Images
	Quotation Editor for adding your own quotes
	Taskbar Icon that visualizes dawn/dusk for your location
	Analogue Clocks Tab to Compare Times Across the Globe
PLUS! PACK	
	Nature 2 And Nature 3 Image Packs (24 extra high resolution images)
	Large-Scale Time Zone/World Map
	Six extra Background Images (2 Moon Phases, 2 Events, 2 Astronomy)
3 Extra Hourly Sounds - Grandfather/Big Ben/Chime No 2 and 4 Extra Alarm Sounds - Alarm/Laser/Honk/Rooster	
	300 Extra Quotations giving a total of 700
	Sundial Screensaver
	Free upgrades to future versions of Anno Domini Standard and Anno Domini Plus!
PROFESSIONAL	
	RSS Internet News Reader with 78 News Feeds and News Ticker in Calendar Tab
	Real-Time and On-Demand Weather Forecasts for today and five days ahead for your 8 chosen locations
	Julian Calendar - View and Print Calendars from 1 AD to 1752 AD
	Atomic Clock Control Panel To Synchronize PC Clock On Demand
	Planets Tab showing in real-time Altitude/Azimuth Positions along with Rise/Set Times of all the Major Planets
	26 Calendar Reports which can be printed for years 1 AD to 2150 AD
	Lunar and Solar Eclipse reports generator for years 1 AD to 2150 AD
	Currency Converter with Live Foreign Exchange Rates for 23 Different Currencies
	Desktop Clocks & Desktop Weather Launcher with real-time visual of the Moon
	Compare visually the Azimuth and Altitude of the Sun / Moon / Planets for your chosen location
	Visualize the Illuminated Fraction and Tilt of the Moon In Real-Time for any location in the world
	Track the Position of the Sun, Moon and Planets in Real-Time With Updates Every Second
	Sundial Screensaver

# Anno Domini 2026

**v1.10 (Build 2601), 1<sup>st</sup> January 2026, Copyright (C) Enzo Ciaffarafá 1995 – 2026  
Free/Shareware Calendar, IBM PC + Microsoft Windows 11, 10, 8.1, 7, Vista, XP**  
<https://www.anno-domini.net>

Anno Domini is a shareware program which means you can evaluate the program for a period of time before deciding whether you wish to continue using the product. You are free to pass copies on copies of the program to friends and colleagues providing the distribution package is not altered in any way and is in unregistered form.

You can use Anno Domini legally for a period of 28 days from the day the program was first installed on your computer system. During this time you must decide whether you wish to register to continue using the program with the same functionality as during the trial period. After the evaluation period has expired, the program will revert to Free mode where all nags to register will be removed but only a limited number of functions will be available for use. There are various online registration options available as follows:

**Anno Domini Standard: £7.99 (UK), \$9.99 (US), €8.99 (EUR)**

**AD Standard + Plus! Pack: £9.99 (UK), \$12.99 (US), €10.99 (EUR)**

**Anno Domini Professional: £22.99 (UK), \$29.99 (US), €24.99 (EUR)**

**Plus! Pack: £4.95 (UK), \$6.95 (US), €5.95 (EUR)**

***Purchase of the Plus! Pack entitles users to FREE lifetime upgrades to Anno Domini Standard/Plus!***

## How Can I Register?

### **Register Online by Credit Card**

You can register via the dedicated Anno Domini website by clicking on the 'Buy Online' button from the Help tab in Anno Domini or by going to the web address <http://www.anno-domini.net/Registration9us.htm> and making payment with your credit card. **You will normally receive your registration code within 24 hours by return e-mail.** Payment in UK Sterling or Euros is also accepted.

## Shareware Philosophy!

Anno Domini has been developed over a period of fifteen years and has been continually evolving during that period of time with the help of registered users. Unlike commercial applications that you may find on the high-street, shareware is constantly updated so that you can always have the latest version of the program which can be found on the dedicated website <http://www.anno-domini.net>.

## Why Should You Register?

**No nag screens or reminders while using Anno Domini  
Gain access to free software updates and e-mail support to Anno Domini  
Receive advance notification of updates and new releases  
Help fund development of future versions of the program.**
